

businesses and customers around the clock, 7 days a week, the Web provides even the smallest companies with the opportunity to do business on a global scale. We are about to enter a new and unprecedented era in world trade, and America's businesses, workers, and consumers are poised to embrace this opportunity and continue our leadership of the world economy.

**Now, Therefore, I, William J. Clinton,** President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim May 16 through May 22, 1999, as World Trade Week. I invite the people of the United States to observe this week with events, trade shows, and educational programs that celebrate the benefits of international trade to our economy.

**In Witness Whereof,** I have hereunto set my hand this seventeenth day of May, in the year of our Lord nineteen hundred and ninety-nine, and of the Independence of the United States of America the two hundred and twenty-third.

**William J. Clinton**

**Proclamation 7197—National  
Defense Transportation Day and  
National Transportation Week, 1999**  
*May 17, 1999*

*By the President of the United States  
of America*

**A Proclamation**

Throughout America's history, our transportation system has played a profound role in the security and development of our Nation. As early as the Revolutionary War, America's merchant marine carried cargo to help defend our national interests and uphold our democratic ideals. In the 1800's, as many Americans migrated westward, new roads and canals facilitated travel and trade, helping to unify our young country and to bolster our growing economy. And in the

20th century, few innovations have had the same far-reaching effect on our society as the airplane—now a critical part of our national defense and our robust economy.

Representing 11 percent of the U.S. economy and related to one in every seven American jobs, today's transportation industry continues to grow and thrive. Millions of Americans rely on its readiness for business and leisure travel. And we can be pleased by the improved safety of our transportation system. In 1998, the rate of traffic fatalities in America fell to its lowest level since record-keeping began in 1966. Last year also marked a milestone in aviation safety when, for the first time in our history, there were no reported passenger fatalities on scheduled U.S. air carriers.

Securing the continued strength and safety of our transportation system is among my highest priorities as President. My Administration has acted aggressively to improve the security of our rail system, and, by initiating a new program to encourage Americans to buckle their seat belts, we are working to improve the safety of vehicular travel. As we face the challenges of a new century, we must build on these achievements to ensure that our transportation system remains the finest in the world.

Last year, I was proud to sign into law the Transportation Equity Act for the 21st Century (TEA-21), the largest public works legislation in our Nation's history. TEA-21 invests \$198 billion in our transportation infrastructure. The Livable Communities for the 21st Century Initiative represents another integral part of our transportation strategy for the coming century, providing communities with tools and resources to ease traffic congestion, preserve green space, and pursue wise regional growth strategies. These comprehensive programs will help communities across America create a higher quality of living and secure sustainable economic growth as we work to forge more livable communities for ourselves and for the next generation of Americans.

In recognition of the ongoing contributions of our Nation's transportation system and in honor of the devoted professionals who work to sustain its tradition of excellence, the United States Congress, by joint
